- Play is an essential part of a child's development, giving them a way of coping and problem solving.
- Our ECD Teachers will guide your child to learn, explore, imagine and experiment in a warm and stimulating environment - all with an emphasis on fun.
- Our program develops your child's kindergarten readiness skills through a play-based program. These skills include: social competence, emotional maturity, language and critical thinking, communication and physical health, and well being.

## Parents Tell Us:

- "I love that this Pre-school is play-based."
- "I appreciate the teachers because they build confidence and are so good with all the children."
- "My child is learning new things each week and her social skills have improved so much."
- "My son said he wants to always be 3 so he can go to the 3 year old Pre-school program forever."
